NO EXCUSES

DROPS EXCUSES FASTER THAN YOU CAN MAKE 'EM UP.

Get on target lightning fast and up your game with the new Accelerator™ red dot reflex sight. The low-profile, wide field of view, and superior optics make it the perfect sight for handguns, shotguns, and rifles. With the Accelerator, you'll be faster and more accurate no matter what you're shooting.

MOUNTING OPTIONS
The Accelerator is compatible with today's most popular red dot sight mounts (sold separately) for nearly endless mounting possibilities.

ADJUSTMENTS
Generous windage and elevation travel makes the Accelerator easy to zero. Locking adjustments ensure it maintains zero even under the harshest recoil.

THE KIT
The Accelerator includes a cross-slot mount for Picatinny/Weaver-style rails/mounts, mount adaptor plate, a CR2032 battery, and a durable protective cover.

NEW ACCELERATOR YOU CAN'T FAKE SPEED.

SUPERIOR IMAGE

+ The Accelerator's advanced, quality optics provide a sharp, clear picture across the entire field of view.

ADJUSTABLE BRIGHTNESS

+ Enjoy multiple brightness settings: low, medium, high, and auto. Includes an "on/off" setting to maximize battery life.

EASY-ACCESS BATTERY

+ If you should ever have to change the battery, it's easily accessible on the top of the sight to prevent removing and remounting.

ADAPTER PLATE

+ Included adapter plate allows mounting on most popular reflex sight mounts (sold separately).

FIELD OF VIEW

+ A wide field of view lets you quickly find and lock onto your target (left).

VERSATILITY

+ The Accelerator is designed to sit low and tight on handguns, rifles, and shotguns. It's quick no matter what you shoot (right).

CHECK YOUR EXCUSES AT THE DOOR.

Our CounterStrike™ puts every advantage in your favor, combining a powerful, visible, red laser and an illuminated, 4-MOA green/red dot scope in one versatile sighting system. Get on target faster and with greater precision, either through the scope or using the laser sight. There's no excuse to ever miss a shot again.

MIL-STD-1913/ PICATINNY RAIL MOUNT

Mounting the CounterStrike on the rail of your MSR/AR is as easy as tightening the nut. Rock-solid under fire and fast, repeatable mounting/dismounting.

1/2-MOA CLICK ADJUSTMENTS WITH TETHERED COVERS

The CounterStrike offers precision 1/2-MOA click adjustments (slotted for screwdriver or coin) for windage and elevation. Dial covers are tethered to prevent loss in the field.

COUNTERSTRIKE STRIKE BACK WITH DUAL ILLUMINATION.

BASE-MOUNTED LASER

+ A powerful, integrated visible laser sight lets you engage targets in an instant from almost any position. User selects "on/off" mode for laser.

100% WATERPROOF, FOG PROOF, AND SHOCKPROOF

+ CounterStrike is built to take on the elements, no matter how bad they get. Completely sealed and nitrogen-filled, the CounterStrike is totally waterproof and fog proof.

FLIP-UP LENS COVERS

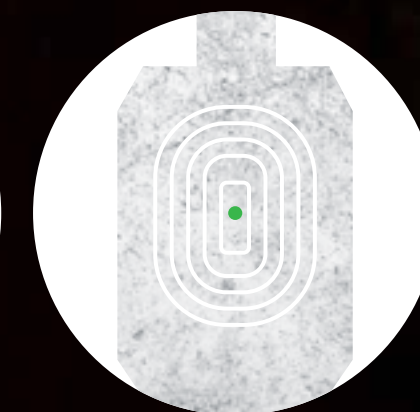

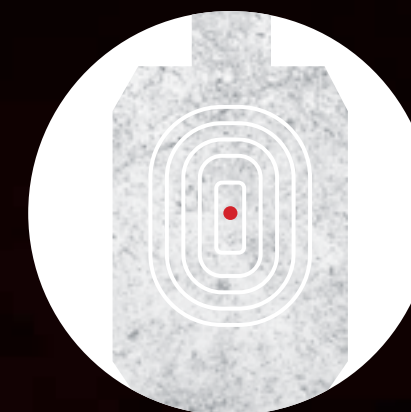

+ Each CounterStrike is equipped with easy-to-use flip-up lens covers to protect lens surfaces from scratches and the elements.

LONG-LIFE BATTERY POWER

+ The illuminated reticle and laser of the CounterStrike is powered by a readily available CR123A battery. Runs up to 5,000 hours on lowest setting and up to 500 hours on highest setting (does not include running of the external laser).

COMBINES ILLUMINATED RED/GREEN DOT RETICLE WITH LASER

The CounterStrike features a user-selectable 4-MOA red/green dot reticle in combination with a base-mounted laser. Eleven different illumination intensity settings (including night-vision compatible) give you the flexibility to adapt to all shooting/lighting conditions.

THIS IS NO TIME FOR IF'S AND BUTS.

Winners adjust. Losers make excuses. Trust your next shot to the Redfield® Battlezone™. The riflescope that proves its mettle time and again with Bullet Drop Compensation (BDC); TAC-MOA™ reticle; and a bright, crystal-clear image. Everything you need to stay in the “zone.”

TACTICAL ADJUSTMENTS FEATURE TACTILE/ AUDIBLE CLICKS

To give you a firm grip and tactile response, the Battlezone features taller tactical-style turrets for windage and elevation. Adjustment dials are 1/4-MOA finger click/resettable.

FAST-FOCUS EYEPIECE

Battlezone features a fast-focus eyepiece that gets you on target faster, and lets you easily adapt to changing shooting conditions.

BATTLEZONE THE FEATURES YOU NEED TO STAY IN THE GAME.

BULLET DROP COMPENSATION SYSTEM (BDC)

+ Each Battlezone comes with two BDC dials specifically calibrated to match the ballistics of popular calibers (see page 11). Quickly compensate for bullet drop at long range with a simple turn of the dial.

FULLY MULTICOATED LENS SYSTEM

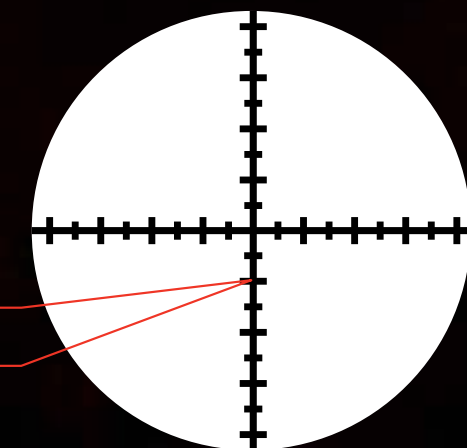

+ Battlezone features our fully multicoated lens system to reduce light reflection and diffusion. With maximum light transmitted to your eye, you get a bright, crisp image in all lighting conditions.

100% WATERPROOF, FOG PROOF, AND SHOCKPROOF

+ Like all Redfield scopes, Battlezone is built to withstand the elements. Nitrogen-filled maintubes are totally impervious to moisture and fogging, and are guaranteed to stay that way for the life of your scope. Rugged Redfield reliability means the optics can withstand the pounding of heavy use and never miss a beat.

TAC-MOA™ RETICLE—ADJUSTS FOR WIND AND ELEVATION

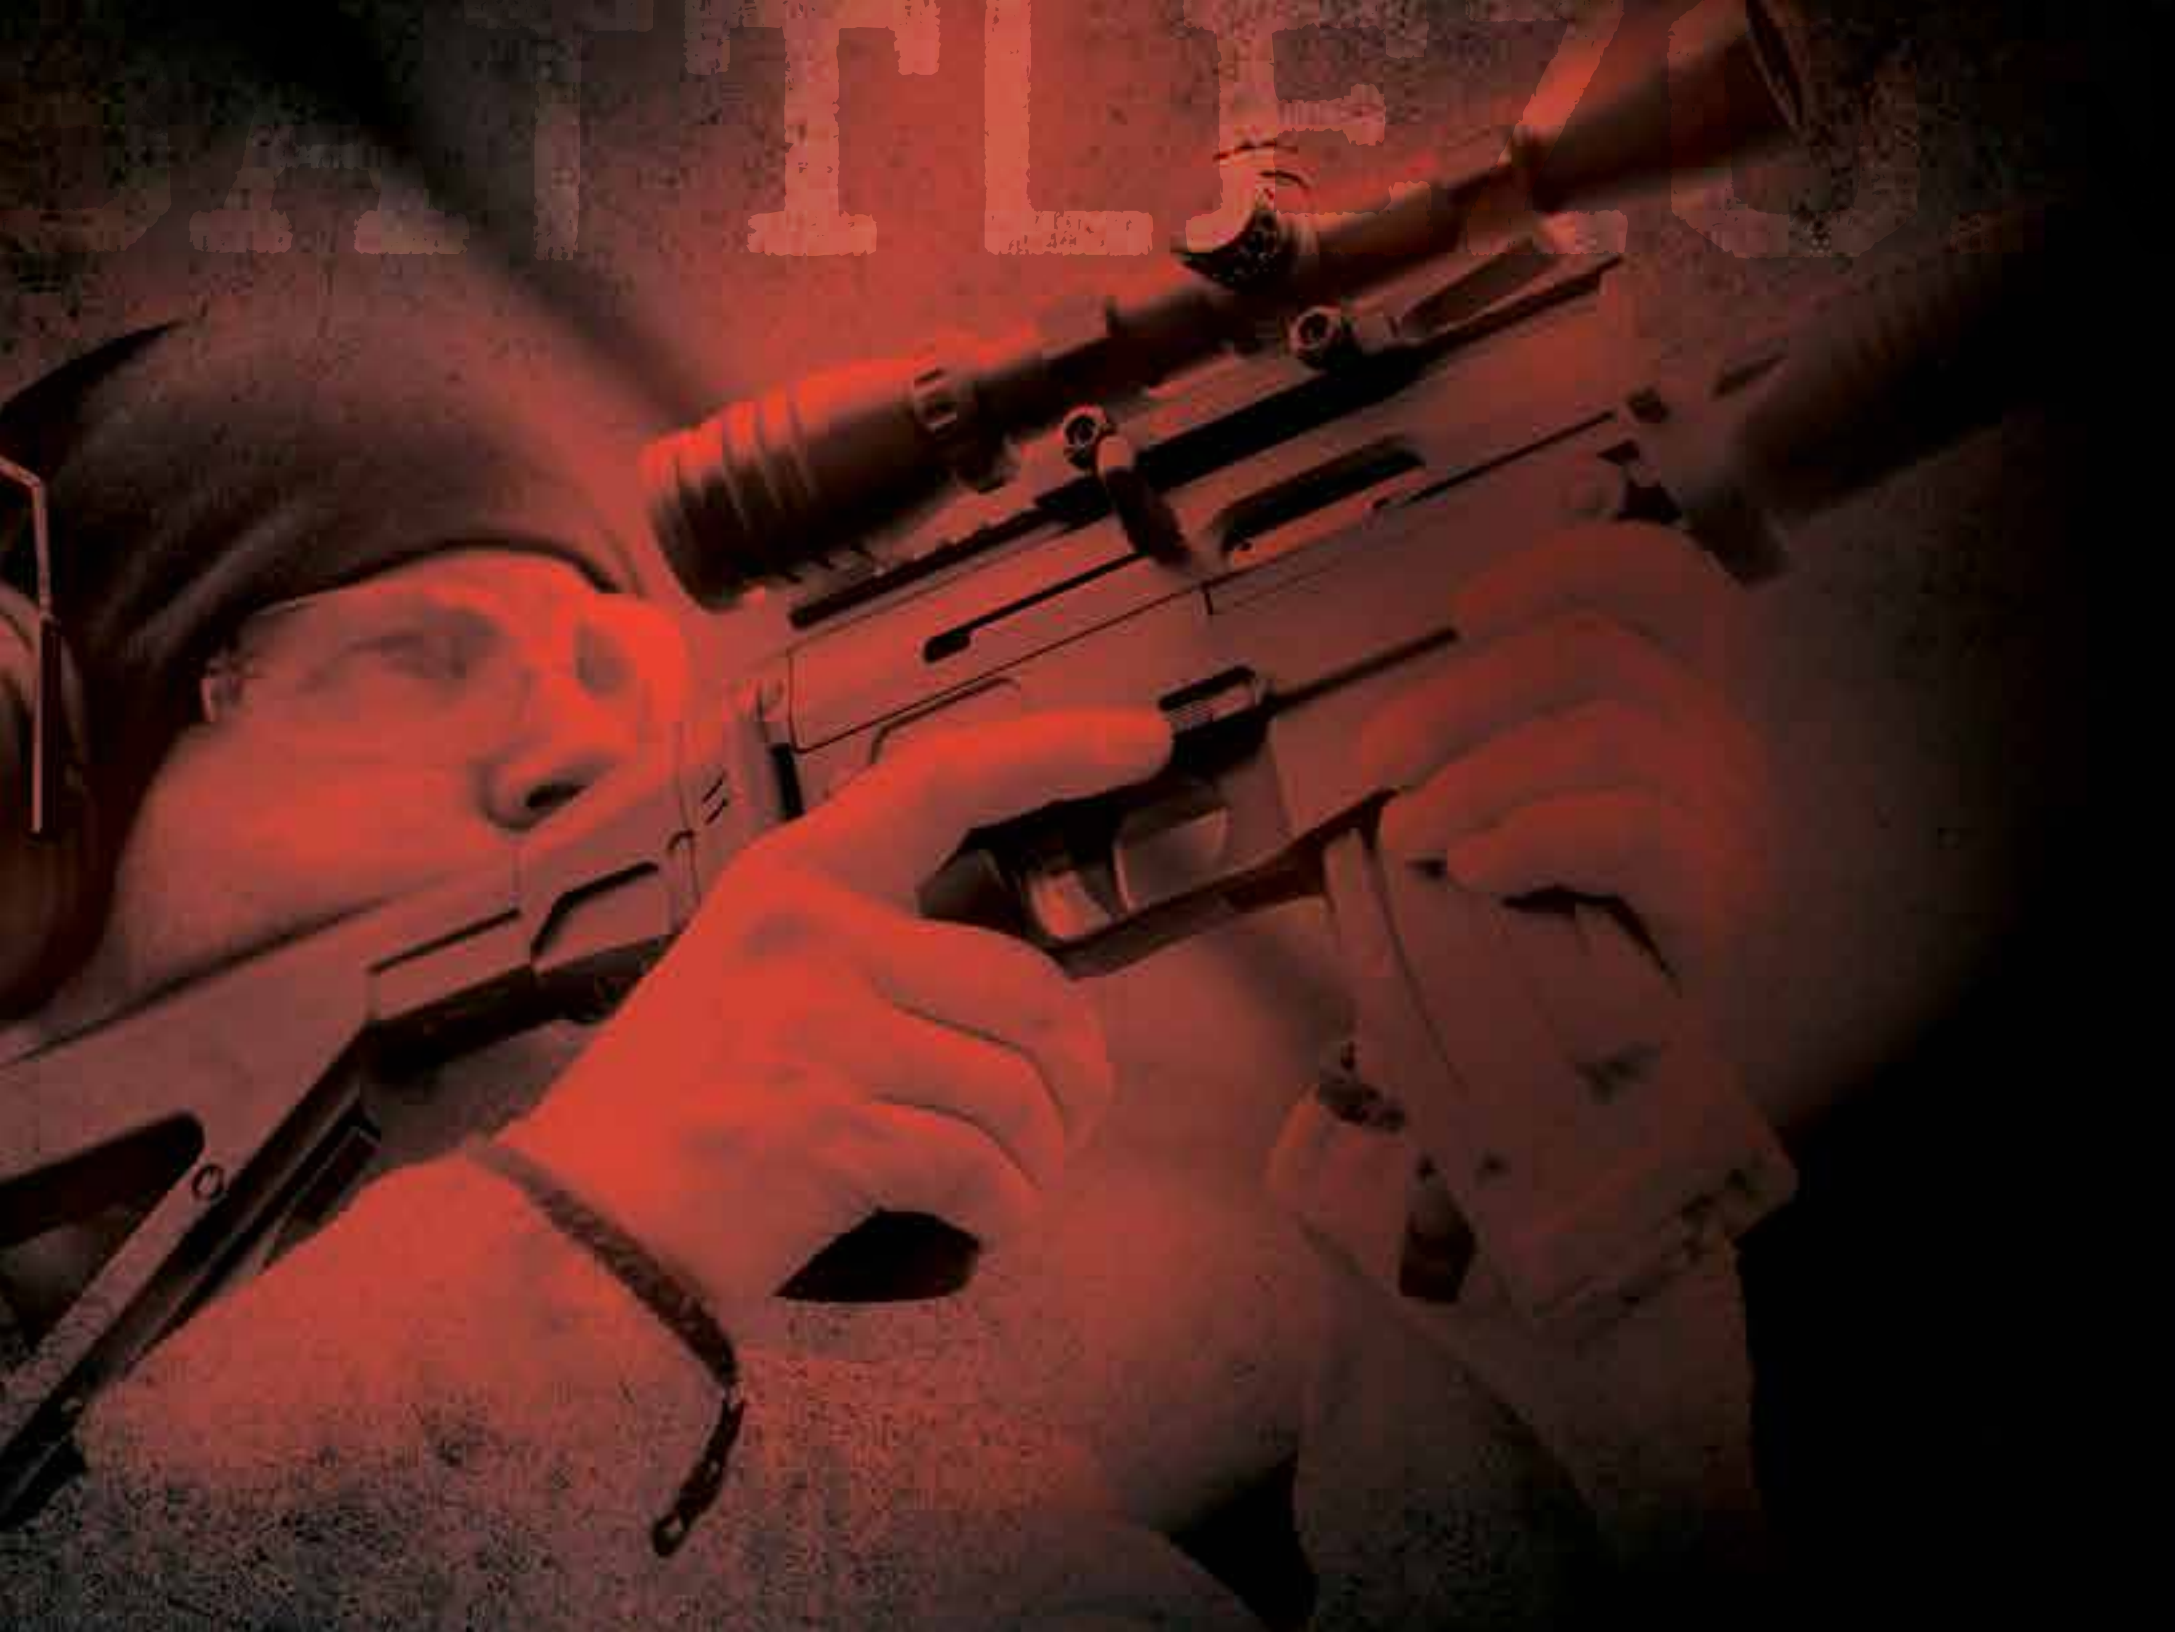

To give your Battlezone greater flexibility and long-range aiming precision, we developed the TAC-MOA reticle. Each tic-mark on the horizontal and vertical posts are in two minute of angle (MOA) increments (Battlezone 6-18x44mm features 1-MOA increments), allowing you to quickly compensate for wind and elevation. Battlezone takes away the guesswork to give you more confidence when it's time to pull the trigger.

1 MOA INCREMENTS
[6-18x44mm]

2 MOA INCREMENTS
[2-7x34mm TAC 22, 3-9x42mm]

[Enlarged for detail]

EACH BATTLEZONE COMES WITH TWO BDC DIALS FOR POPULAR CALIBERS

Each Battlezone 3-9x42mm or 6-18x44mm comes with two elevation BDC (Bullet Drop Compensation) dials calibrated to match two of the most popular calibers for tactical rifles. The .223/5.56mm NATO dial is calibrated for 55 grain bullets at 3,100 fps, while the .308/7.62mm NATO dial is calibrated for 168 grain bullets at 2,650 fps. Each dial is marked in 50-yard increments.

The Battlezone TAC .22 comes with two elevation dials. One that is marked in 1/4-MOA increments and a BDC (Bullet Drop Compensation) dial that is calibrated for a .22 Long Rifle shooting a 36 grain hollow point bullet at 1,260 feet per second. The BDC dial is marked from 50 to 150 yards.

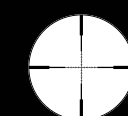

BATTLEZONE 3-9x42mm | MATTE FINISH
 + Made for AR, Modern Sporting, or precision bolt-action rifles. Comes with two elevation BDC dials calibrated in two of the most popular calibers for tactical rifles: .223/5.56mm NATO set up for 55 grain bullets at 3,100 fps and .308/7.62mm NATO for 168 grain bullets at 2,650 fps.

TAC-MOA

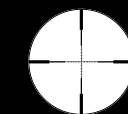

BATTLEZONE 6-18x44mm | MATTE FINISH (New)
 + Ideal for long-range precision accuracy. Includes elevation BDC dials for both a .223/5.56mm NATO set up for 55 grain bullets at 3,100 fps and .308/7.62mm NATO for 168 grain bullets at 2,650 fps.

TAC-MOA

BATTLEZONE TAC .22 2-7x34mm | MATTE FINISH (New)
 + Whether you're hunting small game or just plinking, this riflescope will take your accuracy to a new level. Comes with an elevation dial marked in 1/4-MOA increments, plus a second BDC dial that's calibrated for a .22 Long Rifle shooting a 36 grain hollow point bullet at 1,260 fps.

TAC-MOA

THERE'S A MILLION EXCUSES OUT THERE. RANGING IS NO LONGER ONE OF THEM.

Our Revenge® riflescopes feature bright, clear optics; rugged reliability; and an exclusive "in-scope" ballistic ranging system (the only one of its kind) that puts you dead on the money every time.

DIAL THE DISTANCE
Optional Dial-N-Shoot™ System (D-N-S™) lets you range your target, and precisely compensate for bullet drop and wind drift. See page 14.

1/4-MOA POP-UP RESETTABLE FINGER CLICK ADJUSTMENTS
Quickly adjust for windage and elevation (6-18x44mm Adj. Obj. has 1/8-MOA adjustments).

FAST-FOCUS EYEPIECE
Lets you quickly and easily adapt to changing conditions.

REVENGE THE DISTANCE BETWEEN YOU AND THAT TROPHY JUST GOT SHORTER.

ACCU-RANGER BALLISTICS SYSTEM™

+ Our exclusive Accu-Ranger Ballistics System™ eliminates the guessing game of judging distance, putting you in a better position to make an accurate shot. Best of all, it happens "in scope" so there's no need to go back and forth between your riflescope and a laser rangefinder.

FULLY MULTICOATED LENS SYSTEM

+ Revenge riflescopes feature our fully multicoated lens system to reduce glare and diffusion. Maximum light transmission is delivered to your eye so you see a bright, clear image in all lighting conditions.

100% WATERPROOF, FOG PROOF, AND SHOCKPROOF

+ Revenge riflescopes are built to take on the elements, no matter how bad they get. Nitrogen-filled and permanently sealed, Redfield riflescopes are totally waterproof and fog proof, and are guaranteed to stay that way for the life of your scope. Rugged Redfield reliability means the optics can withstand the heaviest recoiling rifles without missing a beat.

14 DIFFERENT MODELS

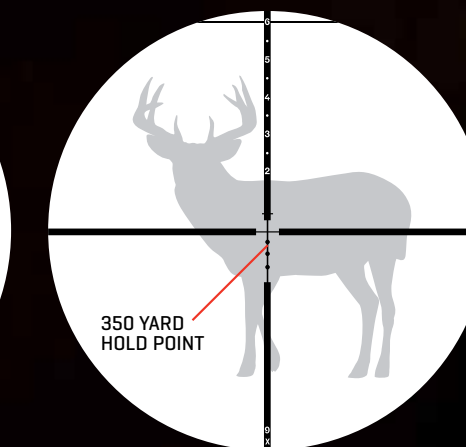

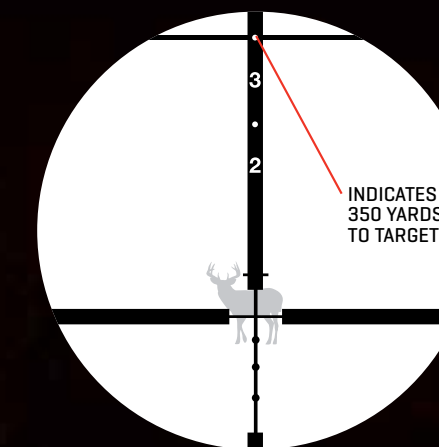

+ Revenge is available with and without the Accu-Ranger Ballistics System (ABS). See the lineup on page 14.

ACCU-RANGER®: AS EASY AS RANGE. ZOOM. FIRE.

Just determine the range, choose the correct holdover, and put your bullet downrange with incredible accuracy. Range. Zoom. Fire.

To use the Accu-Ranger® reticle, simply bracket the torso of the animal between the horizontal line and top post of the reticle. The number intersected by the range indicator is the distance to the target [2 = 200 yards, 3 = 300 yards, etc].

Once you determine the range, zoom to the highest power and use the corresponding ballistic holdover points as your aimpoint.

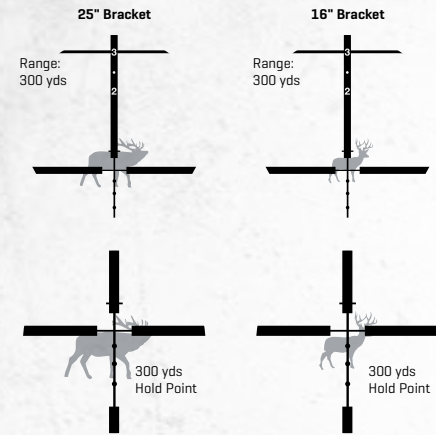

Patent Pending

RETICLE SYSTEMS

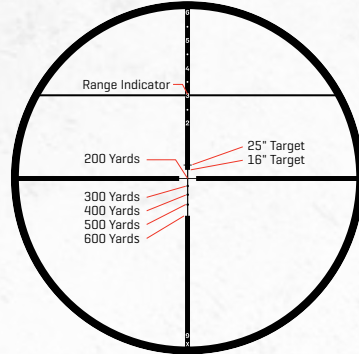

Redfield Revenge offers an unprecedented combination of ranging capability and aiming precision with our Accu-Ranger (ABS) and Accu-Plex™ reticles. Now, there's no excuse for misjudging distance.

ACCU-RANGER (ABS) RETICLES

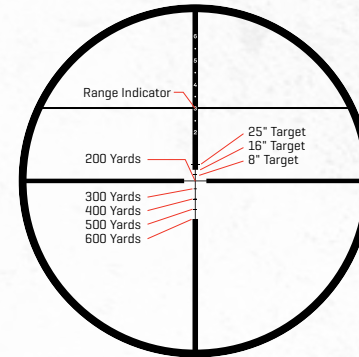

Adjust the magnification until your target fits the bracket and read the distance indicated on the top post of the reticle. Once the distance has been determined, adjust scope to highest magnification and aim with the appropriate holdover point. Each reticle offers ranging brackets for 16" [deer] and 25" [elk/coyotes] targets, while the Varmint reticle has an additional 8" bracket [prairie dogs/coyotes].

ABS SABOT ML RETICLE

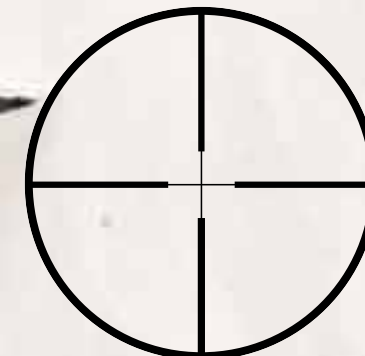

ABS CROSSBOW RETICLE

4-PLEX® REVENGE RETICLE

+ Heavy posts stand out against cover and in twilight conditions pointing boldly to the intersection. Centering is a snap. The thin crosshairs obscure little.

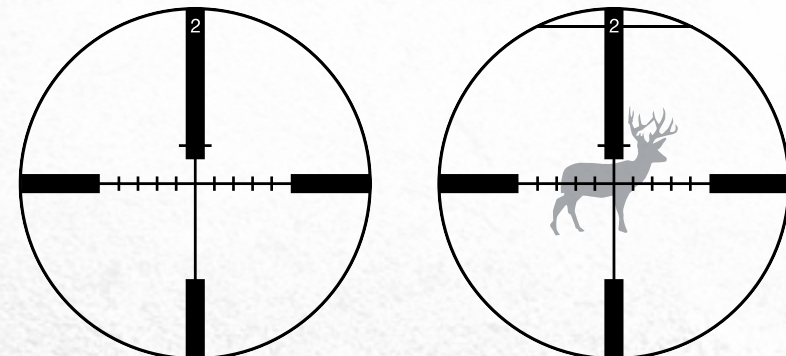

FINE PLEX RETICLE

+ Thinner posts and crosshairs allow for less target coverage, making precision shots on small targets easy.

DIAL-N-SHOOT™ WITH ACCU-PLEX™ RETICLE

Long-range accuracy has never been easier with Redfield Revenge Dial-N-Shoot [D-N-S]. Simply adjust the magnification until your target fits the bracket of the Accu-Plex reticle and read the distance indicated on the top vertical post [2 = 200 yards, 3 = 300 yards, etc]. Once the distance has been determined, simply turn the D-N-S elevation adjustment dial to the corresponding distance, hold dead on, and shoot. The Accu-Plex reticle also features tic-marks every 2-MOA [minutes of angle] on the horizontal crosswire allowing for precise bullet wind drift compensation.

ACCU-PLEX RETICLE

COMES WITH FIVE BDC DIALS FOR POPULAR CALIBERS

Each Revenge D-N-S scope comes with five pre-engraved Bullet Drop Compensation [BDC] elevation dials to match the ballistic profiles of most popular hunting calibers, from .17 Remington to .338 RUM. Please consult www.redfield.com for the complete list of dials and methods of matching D-N-S to your specific ballistics information.

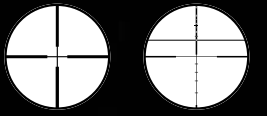

NO EXCUSES™

REVENGE 2-7x34MM | MATTE FINISH

+ With 7X magnification and lighter weight, this is a perfect choice for a crossbow or short action rifle. Ideal in the woodlots and thickets, as well as meadows and broken country.

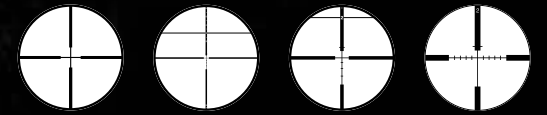

4-Plex ABS Crossbow

REVENGE 3-9x42MM | MATTE OR SILVER FINISH [Revenge D-N-S Shown]

+ Low-power field of view with high-power precision. The ranging abilities of the Accu-Ranger Ballistics System provide a distinct advantage in the field.

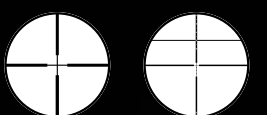

4-Plex ABS Hunter ABS Sabot ML Accu-Plex

REVENGE 3-9x52MM | MATTE FINISH

+ Squeeze a little extra light out of the day. Adds maximum brightness for easy targeting of deer and other game at dawn, dusk, or when the weather turns nasty.

4-Plex ABS Hunter

REVENGE 4-12x42MM | MATTE FINISH

+ The one to carry when long shots are the norm. With full 12X magnification, you're ready for everything from pronghorns and muleys, to whitetails and woodchucks.

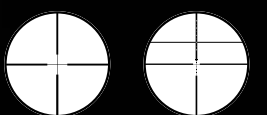

4-Plex ABS Hunter ABS Varmint

REVENGE 6-18x44MM ADJUSTABLE OBJECTIVE | MATTE FINISH

+ For tiny targets and smaller groups, you'll appreciate the high magnification, 1/8-MOA adjustments, and adjustable objective.

Fine Plex ABS Varmint

DROP KICK THE STATUS QUO.

With a name like Revolution®, it's fitting that this riflescope is American-made, right here in our Beaverton, Oregon, factory. It's a revolution of world-class, game-changing optics that go beyond what you need, straight to damn-that's-awesome-and-I-want-it. And with the addition of the Revolution/TAC™, you can kiss the status quo goodbye.

ILLUMINATOR LENS SYSTEM®

+ Our Illuminator Lens System® gives you the clearest image for the cleanest shot. Premium lenses and coatings deliver exceptional light transmission even at dawn and dusk.

RAPID TARGET ACQUISITION®

Get on target faster. Our Rapid Target Acquisition® (RTA) eyeiece and generous eye relief eliminate searching for the visual sweet spot when time is critical.

100% WATERPROOF, FOG PROOF, AND SHOCKPROOF

+ Nitrogen-filled and permanently sealed maintubes are guaranteed to be waterproof and fog proof for the life of your scope. Rugged reliability means the optics can withstand the heaviest recoil time after time.

REVOLUTION

PACKED WITH ALL THE FEATURES YOU NEED.

ACCU-TRAC® ADJUSTMENTS

+ Precision, stainless steel, 1/4-MOA finger click windage and elevation adjustments let you quickly and easily zero your rifle on the range.

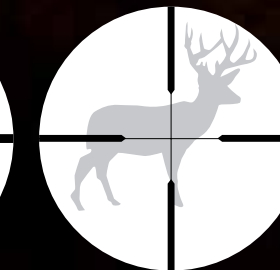

ACCU-RANGE® RETICLE

+ An innovative Bullet Drop Compensation System pioneered by Redfield (and copied in many other scopes around the world). For more information, see page 18.

ACCU-RANGE® RETICLE

4-PLEX® RETICLE

4-PLEX RETICLE

+ Heavy posts stand out against cover and in twilight conditions pointing boldly to the intersection. Thin crosshairs allow precise placement of your shot.

REVOLUTION/TAC

MAKE ADJUSTMENTS.
NOT EXCUSES.

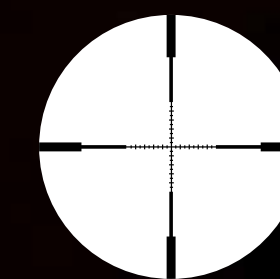

ADJUST ON THE FLY

+ The Revolution/TAC syncs tactical adjustment dials and the TAC-MOA reticle to let shooters make quick, simple adjustments for better accuracy.

TAC-MOA RETICLE

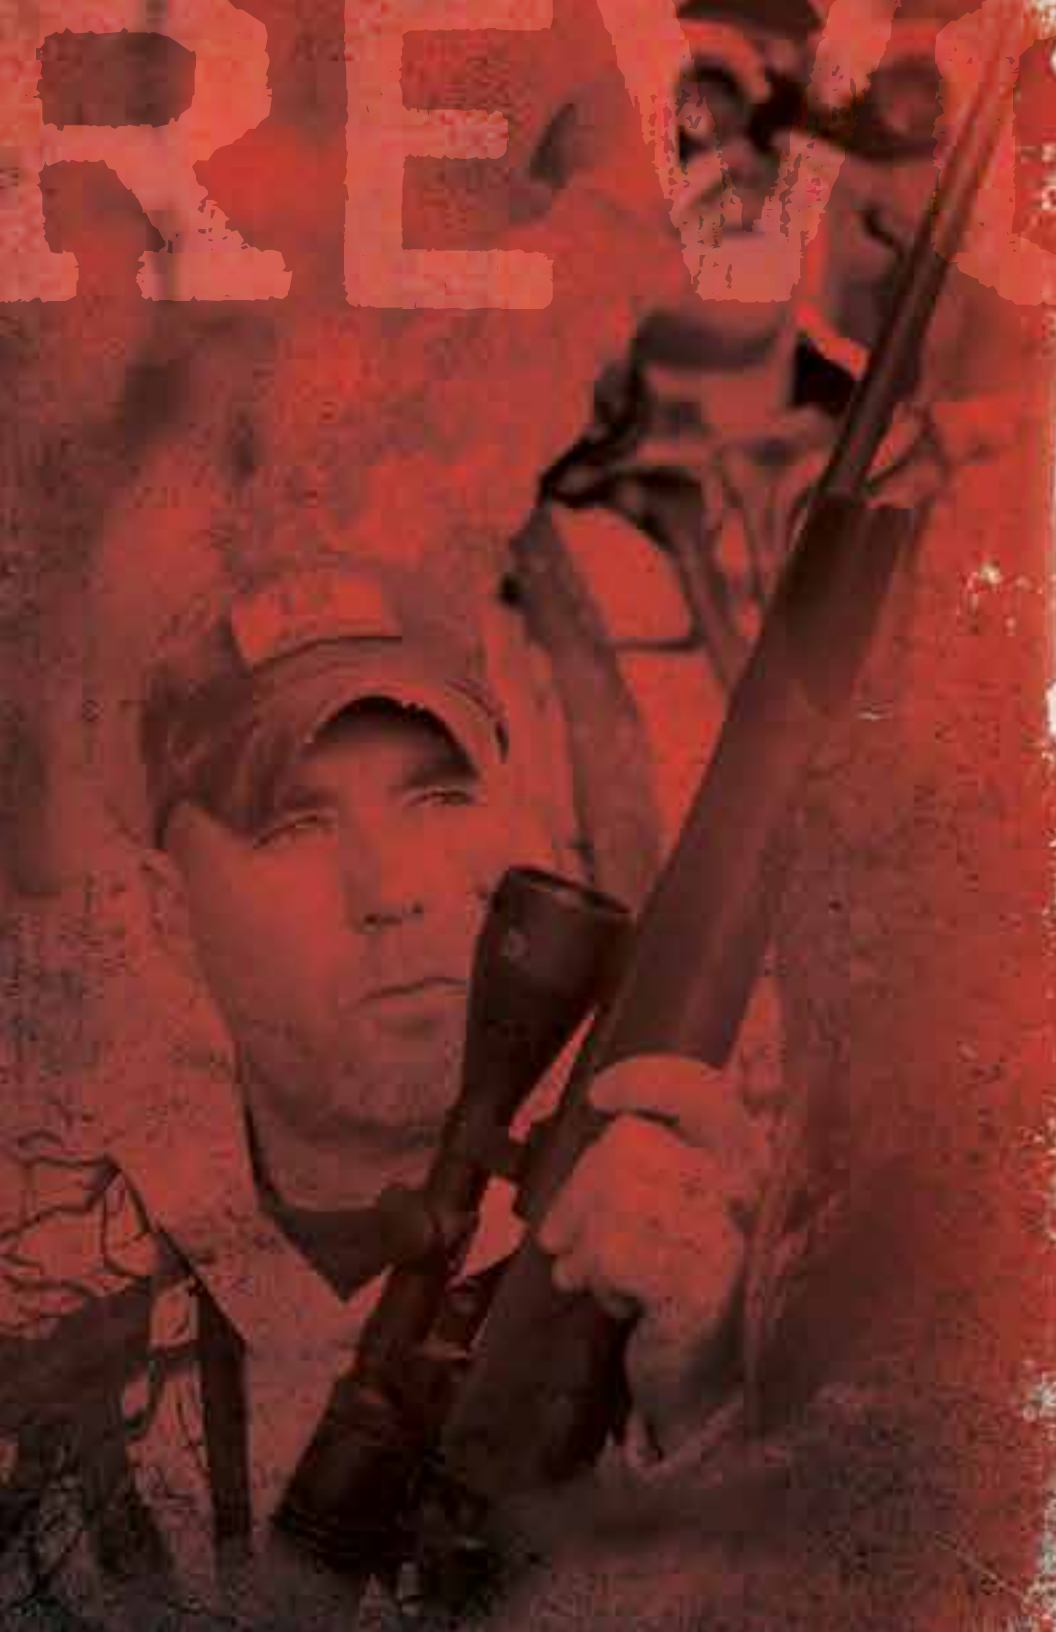

+ Markings on the horizontal and vertical posts in two minute of angle (MOA) increments provide quick wind and elevation adjustments. Get greater flexibility and precision, even at long range.

TAC-MOA™ RETICLE

TACTICAL DIALS

+ Taller, tactical-style windage and elevation adjustments feature aggressively knurled dials and tactile/audible 1/4-MOA clicks to give you a better grip and more control over the elements.

ACCU-RANGE RETICLE

TAKE THE GUESSWORK OUT OF YOUR NEXT SHOT.

As one of the first with Bullet Drop Compensation, Redfield's original Accu-Range® pioneered the reticles we take for granted today. The Accu-Range blends precise holdover points hunters need with a bold center that naturally leads the eye for fast shot placement at close quarters.

The reticle comes with precise aiming points that work with most popular hunting loads. For many standard cartridges (Group 1 at right), sight in at 200 yards with the center crosshair, and the remaining hold points are dialed in up to 500 yards. The bottom of the circle intersects the vertical crosshair at the 300-yard aim point, the dot is your hold for 400 yards, and the bottom post provides a 500-yard aiming point. For faster, magnum-caliber rifles shooting light bullets, you can sight in at 300 yards and have hold points for 400, 500, and 600 yards.

Accu-Range is ideal for fast target acquisition at close range or on running game.

Accu-Range is also ideal for taking game cleanly at longer ranges.

CARTRIDGE GROUPS FOR USE WITH ACCU-RANGE RETICLE

GROUP 1 (200 YARD ZERO)		
Caliber	Bullet Wt.	Velocity
.243 Winchester	100	2900 fps

(Less than 35 inches of drop at 500 yards)

NO EXCUSES™

REVOLUTION/TAC 3-9x40MM | MATTE FINISH (New)

+ It's the Revolution—tactical style. Everything you love about the Revolution plus tactical dials and the TAC-MOA reticle. Allows for quick, simple adjustments when conditions change and time is of the essence.

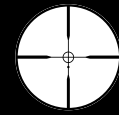

TAC-MOA

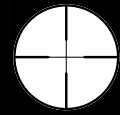

REVOLUTION 2-7x33MM | MATTE FINISH

+ If you hunt woodlots, thickets, or dark timber, this Revolution is for you. Mount it on a lever gun or short action to save weight and get the job done. Plus, the 7X magnification makes this scope at home hunting over meadows, clear-cuts, and broken country.

Accu-Range

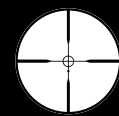

4-Plex

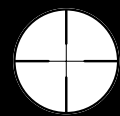

REVOLUTION 3-9x40MM | MATTE FINISH

+ This go-to scope gives hunters great flexibility with a magnification range that combines low-power field of view and high-power precision. This Revolution will be right at home in any terrain you hunt.

Accu-Range

4-Plex

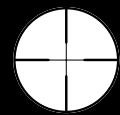

REVOLUTION 3-9x50MM | MATTE FINISH

+ Need to squeeze a little extra light out of the day? The 3-9x50mm adds maximum brightness for easy targeting of deer and other game at dawn, dusk, or when the weather turns bad.

Accu-Range

4-Plex

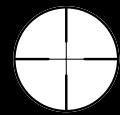

REVOLUTION 4-12x40MM | MATTE FINISH

+ For those wide-open spaces, cutovers, clear-cuts, and bean fields where long-range shots make a difference. Dial it all the way up to 12X magnification, and you have a scope for everything from pronghorn and whitetail to coyotes and woodchucks.

Accu-Range

4-Plex

THE ONLY THING YOU'LL MISS IS THE STICKER SHOCK.

Rampage® is a full-sized, fully featured spotting scope that opens up a world of possibilities with a price tag that anyone can afford. Bright, clear optics and rugged Redfield dependability make it the perfect choice for observation, at the range or on the hunt.

FIELD OF VIEW

The generous field of view—114 feet at 20X, 51 feet at 60X—means you get the whole picture. Don't miss a single detail as you scan the ridgeline for that trophy.

RAMPAGE BIG-TIME PERFORMANCE AT A USER-FRIENDLY PRICE.

BAK4 PRISM SYSTEM

+ These top-quality prisms deliver unmatched clarity and resolution, so you get a crisp, clear image every time. No dull or muddled reproduction, just accurate color fidelity and sharp edge-to-edge clarity to help you separate game from their natural surroundings.

POLYCARBONATE BODY

+ Made of the same stuff as bulletproof glass, the body is exceptionally light, yet remarkably tough. It will be there with you, standing up to the toughest elements and terrain.

RETRACTABLE LENS SHADE

+ Reduce glare and increase visibility when spotting in wide-open country.

READY. SET. GO ANYWHERE.

RAMPAGE® 20-60x80MM ANGLED EYEPIECE KIT

+ This all-in-one kit comes complete with a 20-60x80mm Angled Eyepiece Rampage, tripod, view-thru case, soft carry case with strap, and covers for both the eyepiece and objective. The 45-degree angled eyepiece provides greater comfort and ease of use at the range or in the field. Black finish.

RAMPAGE 20-60x60MM KIT

+ Includes a 20-60x60mm Rampage, tripod, view-thru case, soft carry case with strap, and eyepiece and objective covers. This complete spotter kit is at home at the range or on the hunt. Black finish.

NO EXCUSES™

REBEL SMALL IN STATURE. BIG ON PERFORMANCE.

A compact, all-purpose binocular that will get the job done from dawn to dusk. A close focus distance of less than 10 feet and a huge field of view makes the Rebel® a perfect fit for almost any situation. Available in 8X and 10X models.

+ Integrated twist-up eyecups provide a great fit, with or without glasses.

RENEGADE SAY GOODBYE TO THE SAME OL' SAME OL'.

Buck the system and get more value for your money. No matter the conditions, you'll spot game with ease thanks to a Porro prism design that doesn't flatten the image, giving you 3-D reproduction with generous depth of field. Available in 7X, 8X, and 10X models.

+ Get a sure grip and ease of focus, thanks to aggressive knurling and rubber armor.

BAK4 PRISM SYSTEM

Brightness. Resolution. Edge-to-edge clarity. Three things you need to spot a rack in tangled timber or the twitch of an ear through the brush, all thanks to the advanced BAK4 Prism System.

FULLY MULTI-COATED LENSES

Fully multi-coated lenses guarantee a bright, sharp image to spot your game. These lenses maximize transmission of fading light for strong performance in twilight conditions. Eliminate muddy images and missed opportunities thanks to crystal-clear resolution and accurate color reproduction.

ARMORED CONSTRUCTION

Polycarbonate body construction stays fog-free to keep you glassing in all conditions. Built tough, these binoculars tackle rough conditions without worry. Includes a soft case, comfortable neoprene neckstrap, and durable lens covers.

IN MY PACK, THERE'S NO ROOM FOR EXCUSES.

When you're packing for your next hunt, you want a binocular you can trust. Redfield Rebel and Renegade® binoculars will more than carry their weight, delivering on our "No Excuses" promise season after season.

NO EXCUSES™

RAIDER 600 LIGHTNING-FAST AND DEADLY ACCURATE.

RAIDER 600A™ FEATURES INCLINOMETER

+ Take the guesswork out of uphill/downhill shots with the Raider 600A™ [Angle]. Automatically compensates for incline/decline to give you true horizontal distance for more precise shooting.

EASY TO USE

+ With simple, one-button operation, the Raider™ is ideally suited for fast action in the field. One press of the button ranges your target instantly, while a press and hold will let you scan the landscape, returning ranges for various landmarks or game.

PEAK PERFORMANCE

+ High-speed, digital processor and powerful laser combine to deliver instant, accurate ranging in the field.

COMPACT SIZE

+ At less than five inches long and under five ounces, the Raider is a powerful tool in a tiny package. Easy to carry and handle, it's a compact rangefinder that makes a big difference.

BATTERY POWER

The Raider's efficiency means long battery life, so it's always ready when you need it. Commonly available CR2 battery makes replacement hassle free.

MAGNIFICATION

The 6X magnification lets you get up close and personal while ranging. Make sure you're dialed in on that target, or use your Raider as an instant spotter when game is close.

Raider 600A

Raider 600

Raider 600 Camo

Raider 600 Metric

DEAD ON ACCURACY FOR UNSHAKEABLE CONFIDENCE.

When a big buck sneaks through the clearing you've been scouting for months, are you going to trust your shot to a guess? Give yourself the advantage with our Raider 600 laser rangefinder. Lightning-fast. Deadly accurate.
